

Daniel Cazacu

Oceanside, CA | 760-550-7294 | cazacudaniel260@gmail.com | [LinkedIn](#)

EDUCATION

Mission Vista High School

Graduation Date: June 2026

13 AP Courses/9 Honors Courses GPA: 4.58

University Of California, San Diego

Expected Graduation Date: June 2030

Bachelor Of Science, Electrical Engineering GPA: Not Available Yet

PROFESSIONAL EXPERIENCE

LifeSpark Labs

September 2024-December 2024

Product R&D Intern

- Project managing, managing time and resource constraints, consider company goals, creating a high quality standard.
- Research projects, including interview research and web/data research, analyzing results to contribute to product design.
- Creating a program for youth to participate in, provides crucial data toward creating a successful product design.

NASA JPL/California Institute Of Technology/NITARP

August 2024-May 2025

Student Astronomer/Research Intern

- Developed significant skills in real world astronomical research as well as critical communication and team skills.
- Categorized active galactic nuclei after looking at photometric imaging of objects in space into groups of accepted or rejected as truly being AGN based on size, shape, distance, nebulousity, interference and other important factors in astronomy.
- Created a final poster of our research results to be presented at the American Astronautical Society meeting, publishing a research paper including credit to me for my contributions to the research program.

Ironwolves FTC Robotics Team

August 2023-June 2026

Co-President/Mechanical and Electrical Lead

- Helped to mentor and teach CAD modeling to new members while also learning and implementing my own skills.
- Develop ideas for safe and working electrical organization and connections to ensure approval from competition judges.
- 2x Design Awards, 1x Connect Award, Started 2 local FLL teams, Connected with various teams from 9 foreign countries.

Proportional-Integral-Derivative Controlled Thrust Vectoring Rocket Project

April 2026-Present

Project Electrical Lead

- Studied MPU-6050 accelerometer and gyroscope properties in order to successfully solder with correct orientation and wire connections. Researched thrust vectoring mathematics and how they apply through a C++ program.
- Debugged proportional integral and derivative section of the program through changing engine mount centering and correction variables to ensure accurate correlations between digital and physical properties.
- Worked with aerospace engineer partner to ensure electrical components could work with parts made in OnShape CAD.

Scouting America

August 2022-July 2026

Eagle Candidate/Senior Patrol Leader

- Manage and organize troop wide events like campouts, sporting events, jamborees, and bonding experiences.
- Ensuring safety and respectfulness between scouts, as well as developing an appealing curriculum for the troop.
- Participating in and organizing various community service events for the troop, 100+ hours of community service.

HONORS, VOLUNTEER SOCIETIES, INTERESTS

- **Societies:** National Honor Society, Science National Honor Society, Youth Change Council, Aerospace Society.
- **Interests:** Community Service, Engineering, Aerospace, Digital Electronics, Calculus, AI.
- **Awards:** AP Scholar, 2x FTC Design, 1x FTC Connect, 6x Honor Roll, Vista Rising Star Award/Scholarship, Academic Team Division Championship – 1st, Academic Team North County Championship - Semi Finalist, Sevens Legal Essay Competition/Scholarship – 1st, ALNC Scholarship, PB and OJ Family Foundation Scholarship.
